CAREER OBJECTIVE

Java Developer with hands-on experience in developing web applications using **Java**, **Spring Boot** and **MySQL**. Skilled in building **RESTful APIs**, managing databases, and collaborating using Git and GitHub.

EDUCATION

Greenfinger's College of Computer and Technology, Akulj

Akulj, Maharashtra

Bachelor of Computer Science, Solapur University

10/2022-10/2025

- CGPA: **6.72/10**

SKILLS

Technical skills: Core Java, JavaScript, Spring Boot, Hibernate, ReactJS, MySQL, Github, HTML

Tools: Eclipse IDE, VS Code, Postman

Training

Hefshine Softwares pvt Ltd, Pune

Pune, Maharashtra

Java FullStack Developer

02/2025 - 05/2025

- Completed hands-on training in Core Java, **Spring Boot** and **ReactJS** with practical exposure to full-stack development.
- Designed and developed scalable backend services using Spring Boot and seamlessly integrated them with ReactJS frontend components.
- Implemented robust CRUD functionalities with input validation, exception handling and optimized database interactions using **MySQL**.
- Applied MVC architecture, object-oriented programming principles and clean coding standards within a collaborative team-based development environment.

PROJECTS

Employee Management System

04/2025-05/2025

- Engineered a full-stack Employee Management System using **Spring Boot**, **ReactJS**, **RESTful APIs** and **MySQL** to streamline employee record management.
- Developed and optimized **CRUD** functionalities, pagination, search filtering, input validation and centralized exception handling to enhance application reliability and user experience.
- Integrated ReactJS frontend components with **Spring Boot** backend services using **Axios** for efficient API communication and seamless data flow.
- Deployed frontend and backend applications on **AWS EC2** with **MySQL database** persistence, ensuring secure and reliable application hosting.

Tuition Management System

01/2024-02/2024

- Developed a full-stack Tuition Management System to efficiently manage student records, attendance tracking and fee management processes.
- Implemented CRUD operations, database connectivity and form validations to ensure accurate management and application reliability.
- Applied clean coding practices and modular design principles to enhance maintainability and scalability of the application.

ACHIEVEMENTS

- Certified **Java Backend Developer** by **CodeSikho**, demonstrating advanced proficiency in **Core Java**, **OOP Concepts**, **Exception Handling** and **Collections**.
